Who is Abdullatif Aldakheel

Abdullatif Aldakheel is a prominent Kuwaiti professional with a unique dual expertise in law and engineering. As both a lawyer and an engineer, he offers a distinct perspective that combines technical precision with legal analysis. He maintains an active media presence on social media platforms, where he regularly shares his analysis of Kuwaiti laws, offers simplified legal advice, and comments on public issues of community interest, making him a well-known legal voice among the public. Prior to focusing fully on his legal practice, Aldakheel held a high-ranking government position as the Chairman of the Board of Directors of the Public Authority for Roads and Land Transport. During his tenure, he oversaw vital projects to develop Kuwait's infrastructure and worked on strategies to create a modern, safe, and efficient transportation system, including major projects like the railway and metro. This experience highlights his deep expertise in administrative affairs, government contracting laws, and the management of large-scale projects, which enriches his current legal practice, particularly in cases related to administrative law, contracts, and construction.

Achievements of Abdullatif Aldakheel

Eng. Abdullatif Aldakheel served as the Chairman of the Board of Directors of the Public Authority for Roads and Land Transport in Kuwait. In this leadership role, he was responsible for overseeing the development and implementation of strategic infrastructure projects in the country and played a pivotal role in planning the future of the land transport sector, including road and railway networks.
