## Who is Ahmad Arabi

Dr. Ahmad Arabi is a leading expert in plastic and reconstructive surgery, practicing at Daw Medical Center in Doha, Qatar. With extensive experience in this highly specialized field, Dr. Arabi is an active member of the American Academy of Aesthetic Medicine (AAAM), reflecting his commitment to the highest global standards of aesthetic care. His career is distinguished by a unique blend of surgical precision and artistic vision, delivering natural and satisfying results for his patients. Dr. Arabi's expertise spans a wide range of cosmetic procedures for various areas of the body. He is renowned for facial plastic surgeries—including rhinoplasty and eyelid surgery—as well as body contouring procedures such as abdominoplasty, breast surgery, and correction of skin laxity after weight loss. He is also highly skilled in advanced body sculpting techniques, including liposuction and the latest non-surgical technologies. Dr. Ahmad Arabi places special emphasis on modern non-surgical aesthetic solutions, offering comprehensive services such as Botox and filler injections, autologous fat transfer, PRP, and mesotherapy. This broad range of services makes him a trusted reference for those seeking innovative and holistic cosmetic solutions. Dr. Arabi personally oversees every case with meticulous attention, from diagnosis and treatment planning to follow-up, ensuring patient safety and optimal aesthetic outcomes—solidifying his reputation as a leading plastic surgeon in Qatar.
