Who is Aziz Abdelaze

Aziz Abdelaziz is an Egyptian content creator and freelancing expert specializing in teaching video editing and online work skills. He built his reputation as a video editing professional, particularly with Adobe Premiere Pro, before shifting his focus to training and empowering Arab youth to enter the world of freelancing. Through his platforms on YouTube, Instagram, and TikTok, Aziz provides rich educational content covering multiple facets of video editing and independent work. His videos range from detailed technical tutorials and strategies for finding clients on platforms like Upwork and Fiverr, to tips on productivity and professional growth. He regularly shares his own success stories and challenges to inspire his audience. Aziz founded his own educational platform through his official website, where he offers comprehensive courses designed to take students from beginner to professional levels. His flagship courses include the "Complete Montage Course" and the "Freelance Master" course, which are structured to equip participants with the technical and business skills necessary for success as freelancers. His methodology emphasizes practical application and delivering real value to help young people achieve financial independence through digital skills.

Achievements of Aziz Abdelaze

He established a comprehensive online educational platform offering specialized training courses in video editing and freelancing. His most notable courses, "Freelance Master" and the "Complete Montage Course," aim to cultivate a generation of professional freelancers in the Arab world. He has successfully built a strong educational community through his YouTube channel and other social media platforms. Through these channels, he provides high-quality free content that has helped thousands of young people learn the fundamentals of video editing and acquire the necessary skills to start their freelance careers.
