Who is Doctor Nader Saab

Doctor Nader Saab is one of the Middle East's most influential Lebanese consultants in plastic and reconstructive surgery. He began his journey studying general medicine in Lebanon before moving to Paris, where he earned an advanced degree in plastic and reconstructive surgery and graduated from the renowned Rond-Point des Champs-Élysées Clinic—one of France's leading specialized medical institutions. He underwent intensive training in both public and private hospitals in Paris, completing a subspecialty in advanced aesthetic care and becoming a board-certified plastic surgeon to the highest European standards. This international background laid the foundation for his distinguished expertise, making him one of the most sought-after Arab surgeons in the region. After eight years of successful practice in Paris as an innovative plastic and reconstructive surgeon, Doctor Nader Saab began traveling weekly to Lebanon to establish a premier medical base in his home country. As his reputation and success grew, he integrated his global European expertise with the needs of Arab patients, cementing his name as a pillar of plastic surgery in Lebanon. In 2006, he founded the region's first specialized plastic surgery hospital, the Cosmetic Surgery Clinic (CCE)—the first cosmetic hospital accredited by the Lebanese Ministry of Health and fully equipped to deliver world-class plastic surgery standards. This hospital marked a turning point in the evolution of the aesthetic sector across the Middle East. Doctor Nader Saab's medical philosophy centers on enhancing natural beauty and preserving each patient's individuality. He is renowned for his honesty and transparency in explaining the possibilities and limitations of every procedure, earning him a reputation for integrity and making him one of the region's most trusted surgeons. Doctor Nader holds an impressive portfolio of research, scientific presentations, and innovations in plastic surgery, and continues to pioneer new procedures to improve surgical outcomes. He has been officially recognized by the Lebanese Ministry of Tourism for his role in advancing medical tourism and positioning Lebanon as a global medical destination. Doctor Nader Saab currently practices at his flagship CCE hospital in Lebanon and his private clinic in Dubai - Jumeirah 2 - Beach Road, and serves as a visiting surgeon at several private hospitals across the Middle East. With his advanced expertise and regional prominence, he is a regular guest on leading Arab and international TV programs, raising public awareness about the latest surgical and non-surgical cosmetic procedures and sharing scientific guidance on recent advances in aesthetic medicine. Thanks to his visionary approach and innovative practices, Doctor Nader Saab is recognized as a leading pioneer in Arab plastic surgery and a key

contributor to the sector's development both locally and regionally.
