Who is Dr.Ahmed Alharbi

Dr. Ahmed Alharbi is a Saudi consultant specializing in plastic and reconstructive surgery, with extensive experience in body contouring and sculpting. His practice is focused on the latest liposuction techniques, including high-definition (Hi-Def) and VASER liposuction, as well as body lifting procedures and autologous fat grafting. Dr. Alharbi is known for his ability to achieve natural, harmonious results that meet his patients' aspirations, with a focus on enhancing the body's aesthetic details. Dr. Alharbi actively shares his knowledge and expertise on social media platforms, providing educational content about various cosmetic procedures, showcasing his surgical outcomes, and answering follower inquiries. He has appeared in television interviews, such as on Rotana Khalijia channel, to discuss advancements in liposuction and fat dissolving, reflecting his status as a trusted voice in the field. He is based in Riyadh and has been associated with medical centers such as Allure Clinics.

Achievements of Dr.Ahmed Alharbi

Dr. Ahmed Alharbi has over 10 years of professional experience in the field of plastic surgery, during which he has successfully performed more than 1,000 operations. This extensive track record reflects his patients' trust and his mastery of a wide range of surgical procedures specializing in body contouring. Dr. Alharbi has built a significant media and social presence as an expert in his field. He has been featured on prominent television channels like Rotana Khalijia to discuss modern techniques in cosmetic surgery. He effectively uses his digital platforms to raise awareness and provide reliable medical information to his followers.
