Who is Dr.Ahmed Zakaria

Dr. Ahmed Zakaria is a distinguished Consultant Plastic Surgeon and an Assistant Lecturer of Plastic and Reconstructive Surgery at the Faculty of Medicine, Ain Shams University, one of Egypt's leading medical institutions. He holds a prestigious membership from the Royal College of Surgeons of England (MRCS) and is an active member of the Egyptian Society of Plastic and Reconstructive Surgeons (ESPRS). Dr. Zakaria specializes in advanced body contouring, particularly 4D Dynamic Body Sculpting using technologies like VASER. His expertise also extends to a wide range of breast surgeries and facial plastic surgery procedures. He is recognized for his approach that combines surgical precision with an artistic eye to deliver natural and harmonious results for his patients. In addition to his clinical and academic roles, Dr. Zakaria is a trusted media personality in his field. He frequently appears on prominent Egyptian television channels, such as Heya TV and CBC Sofra, to provide medical advice and educate the public on the latest advancements in plastic surgery, establishing himself as a reliable source of information.

Achievements of Dr.Ahmed Zakaria

Dr. Ahmed Zakaria earned the Membership of the Royal College of Surgeons of England (MRCS), a prestigious and internationally recognized qualification that signifies a high standard of surgical knowledge and skill. He holds the academic position of Assistant Lecturer of Plastic Surgery at the Faculty of Medicine, Ain Shams University. This role underscores his distinguished academic standing and his contribution to educating and training the next generation of surgeons in Egypt. He is considered a pioneer in 4D Dynamic Body Sculpting in Egypt, utilizing state-of-the-art technologies like VASER to achieve precise and natural-looking results, making him a leading choice for patients seeking these procedures. Dr. Zakaria serves as a regular medical expert on popular television programs broadcast on major Egyptian satellite channels. His media appearances allow him to share his expertise with the public, building trust and promoting accurate awareness about plastic surgery.
