Who is Dr. Dhaifallah Mulafikh

Dr. Dhaifallah Mulafikh is a prominent Saudi consultant in Otolaryngology (ENT), specializing in facial plastic and reconstructive surgery, with a particular focus on rhinoplasty. He has extensive clinical experience gained from working at leading medical institutions in Saudi Arabia. Dr. Mulafikh is currently affiliated with Dallah Hospital - Namar in Riyadh, where he provides advanced diagnostic and surgical services. In addition to his clinical practice, Dr. Mulafikh is involved in academic and research activities. He has been associated with the Department of Otolaryngology-Head and Neck Surgery at King Abdulaziz University Hospital and the College of Medicine at King Saud University. His practice is centered on achieving natural-looking results that harmonize with facial features, utilizing the latest surgical techniques. He is renowned for his expertise in both aesthetic and functional rhinoplasty and maintains an active presence on social media, where he shares case studies and surgical outcomes, reflecting his professional transparency.

Achievements of Dr. Dhaifallah Mulafikh

Dr. Mulafikh has contributed to the scientific literature in the field of rhinoplasty. He co-authored a study published in the Saudi Medical Journal in June 2021, which focused on the validation and clinical application of the Arabic Rhinoplasty Outcomes Evaluation questionnaire. This provides a crucial tool for measuring patient satisfaction and the quality of surgical outcomes in the region. He also co-authored a research paper published in The Journal of Craniofacial Surgery in October 2022. This study analyzed facial angles in Arabian women seeking rhinoplasty, aiming to determine average values to improve surgical planning and achieve results that are more precise and aligned with local aesthetic standards.
