Who is Dr. Faisal Obeid

Dr. Faisal Obeid is a prominent Saudi consultant in plastic and reconstructive surgery with over 15 years of professional experience. His academic journey began at the prestigious King Saud University, where he graduated from the College of Medicine in 2009. He then dedicated six years to in-depth specialization in plastic surgery. His credentials include the Saudi Board of Plastic and Reconstructive Surgery, which he obtained in 2015, as well as the European and Jordanian Boards. To further his international expertise, Dr. Obeid completed a Canadian Fellowship with a sub-specialty in breast and facial aesthetic surgery. During his fellowship, he worked alongside leading plastic surgeons in Canada and the United States, mastering the latest global techniques. In addition to his private practice in Riyadh, Dr. Obeid has served as an Assistant Professor at the College of Medicine at Al-Imam Muhammad Ibn Saud Islamic University since 2017 and has published numerous medical research papers globally. He also serves as a visiting consultant in Dubai and is known for his focus on achieving natural and safe results, particularly in rhinoplasty, body contouring, and breast surgery.

Achievements of Dr. Faisal Obeid

Dr. Faisal Obeid holds multiple prestigious certifications, including the Saudi, European, and Jordanian Boards in Plastic and Reconstructive Surgery. This triple-board certification highlights his commitment to the highest national and international medical standards in his surgical practice. Dr. Obeid completed an advanced Canadian Fellowship, where he sub-specialized in breast and facial aesthetic surgery. This fellowship provided him with training in cutting-edge techniques and the opportunity to work with world-renowned surgeons, significantly enhancing his expertise in these specific areas. In addition to his clinical practice, Dr. Obeid contributes to the academic field as an Assistant Professor at the College of Medicine at Al-Imam Muhammad Ibn Saud Islamic University, a position he has held since 2017. He has also authored internationally published medical research, blending surgical expertise with a strong academic foundation.
