Who is Dr. Faleh Alshahrani

Dr. Faleh Alshahrani is a prominent Saudi consultant in oral and maxillofacial surgery, with a subspecialty in facial cosmetic surgery. Since 2020, he has served as a Consultant and the Head of the Oral and Maxillofacial Surgery Department at King Fahad Medical City in Riyadh. He balances his advanced clinical practice with an academic role as a lecturer in the Oral and Maxillofacial Surgery Department at Princess Nourah bint Abdulrahman University. Dr. Alshahrani earned his bachelor's degree from King Saud University and is certified by the Saudi Board in Oral and Maxillofacial Surgery. To further his expertise, he obtained a Master's degree in Hospital and Health Facilities Management from King Saud University, followed by an American fellowship in facial cosmetic and maxillofacial surgery from the University of Alabama at Birmingham, USA. He completed his training at leading medical institutions, including King Saud Medical City and Sultan Bin Abdulaziz Humanitarian City. In addition to his hospital roles, Dr. Alshahrani leads his private practice at Samai Clinics, located in Dr. Muhammad Al-Faqih Hospital. He offers a comprehensive range of cosmetic and functional procedures, including orthognathic (jaw) surgery, face and neck lifts, rhinoplasty, and chin augmentation. He is known for his approach that combines surgical precision with an artistic vision, utilizing advanced technologies like 3D simulations to deliver natural and harmonious results that meet his patients' goals.

Achievements of Dr. Faleh Alshahrani

Dr. Faleh Alshahrani was awarded the prestigious American Fellowship in Facial Cosmetic and Maxillofacial Surgery from the University of Alabama at Birmingham. This advanced certification highlights his commitment to achieving the highest global standards in his specialized field. He holds the position of Head of the Oral and Maxillofacial Surgery Department at King Fahad Medical City, one of Saudi Arabia's largest medical complexes. This role underscores his administrative and leadership skills, complementing his extensive clinical experience in a demanding medical environment. Dr. Alshahrani maintains an active research profile, with his published work being cited hundreds of times according to Google Scholar. His research focuses on maxillofacial surgery and healthcare administration, contributing significantly to the scientific knowledge base in his specialty.
