

Dr. Mohammed Fawzan

Consultant Plastic, Reconstructive & Body Contouring Surgeon

Saudi - Saudi Arabia

[Read More](#)

Who is Dr.Mohammed Fawzan

Dr. Mohammed Alfawzan is a prominent Saudi consultant in plastic and reconstructive surgery with specialized expertise in body contouring and post-bariatric reconstructive procedures. He completed his advanced training and earned the Saudi Board of Plastic & Reconstructive Surgery, providing him with a strong foundation in safe and advanced surgical practices. Seeking further specialization, Dr. Alfawzan pursued a clinical fellowship at the University of Manitoba in Canada. His fellowship focused specifically on body contouring surgery for patients who have undergone massive weight loss, equipping him with extensive experience in the latest techniques to address the unique aesthetic and functional challenges these patients face. Currently, Dr. Alfawzan practices at 'The Clinics' in Riyadh, where he offers a comprehensive range of surgical and non-surgical procedures. He is particularly renowned for his skills in abdominoplasty, full body lifts, and liposuction, among other treatments designed to restore body harmony. Dr. Alfawzan is also an active presence on social media, where he provides educational content about plastic surgery options and showcases his patient outcomes, thereby promoting health literacy among his followers.

Achievements of Dr.Mohammed Fawzan

Dr. Alfawzan holds the Saudi Board of Plastic & Reconstructive Surgery, a prestigious higher qualification signifying his competence and adherence to the highest medical and surgical standards in Saudi Arabia. He successfully completed a specialized clinical fellowship in Body Contouring Surgery for Massive Weight Loss Patients at the University of Manitoba in Canada. This achievement reflects his advanced training in a highly specific and complex field of plastic surgery.
