## Who is Dr. Qasim Shboul

Dr. Qasim Shboul is a Jordanian General Practitioner and medical content creator who graduated from the Faculty of Medicine at the Jordan University of Science and Technology (JUST). He has gained widespread recognition for his innovative approach to simplifying complex medical information and presenting it to the general public in an interactive and engaging manner on social media platforms like TikTok, Instagram, and YouTube. Through his content, Dr. Shboul aims to increase health awareness and combat the spread of medical misinformation online. His videos cover a diverse range of topics, including explanations of common diseases, proper medication usage, nutritional advice, and debunking health myths. By blending scientific accuracy with a unique, often humorous style, he has successfully built a large community and established himself as a trusted source of medical knowledge for hundreds of thousands of followers in the Arab world. His impactful work in digital health education has been featured on various media outlets, including Al-Mamlaka TV and Roya TV, where he has discussed his role in public health.

## Achievements of Dr. Qasim Shboul

Successfully built an influential digital community with hundreds of thousands of followers across multiple platforms, becoming a leading young voice in health education in Jordan and the Arab world. He provides reliable content that significantly contributes to public health literacy. Featured by prominent Jordanian media outlets, including Al-Mamlaka TV and Roya TV, to discuss his experience using social media to disseminate accurate medical information and combat misinformation. This recognition highlights the media's acknowledgment of his work's importance and impact. Appeared as a guest on various interviews and podcasts, where he has discussed his journey in medicine and content creation. In these appearances, he emphasizes the importance of effective communication between doctors and the community to enhance public health.
