Who is Dr.Ramy Kewan

Dr. Ramy Kewan is an Egyptian pharmacist and influential content creator specializing in skin and hair care, recognized as one of the most prominent experts in his field across the Arab world. Currently based in Saudi Arabia, he has built a substantial following on various social media platforms. Dr. Kewan is known for his scientific yet simplified approach to explaining cosmetic formulations and their efficacy, offering practical advice grounded in his pharmaceutical background. He began his content creation journey with the mission to correct widespread misinformation and provide reliable, evidence-based knowledge in the beauty sector. His content primarily focuses on product reviews, demystifying active ingredients like retinol and hyaluronic acid, and offering solutions for common skin and hair concerns. He runs a successful YouTube channel named "Hna El Agmal" (Here is the Most Beautiful), alongside active accounts on Instagram, TikTok, and Snapchat, where he shares educational and interactive videos. His expertise has also made him a trusted media personality, often invited as a guest on specialized programs to discuss the latest trends in beauty and personal care.

Achievements of Dr.Ramy Kewan

Dr. Ramy Kewan was featured as a Cosmetology and Skincare Expert on the "Tababah" program, broadcasted on the Saudi Arabian radio station Alif Alif FM. During the episode, he discussed the important topic of skincare for teenagers, providing scientific and practical advice, which solidifies his status as a trusted authority in the field. Dr. Kewan has established a significant digital presence, most notably through his YouTube channel, "Hna El Agmal." The channel serves as a primary educational resource for his audience, where he aims to spread awareness about correct skin and hair care practices and combat misinformation, successfully building a community that trusts his expertise and recommendations.
