Who is Dr. Shadi Zari

Dr. Shadi Zari is a Saudi consultant dermatologist specializing in non-surgical cosmetic dermatology and hair transplantation. He is the founder of the Dr. Shadi Zari Clinics, with branches in Jeddah and Makkah. Dr. Zari is double board-certified, holding both the American and Canadian Board of Dermatology certifications, reflecting his extensive North American training. He completed his dermatology residency and fellowship at McGill University in Canada, followed by a two-year advanced fellowship in non-surgical facial aesthetics and hair transplantation at the University of California, San Francisco (UCSF). In addition to his clinical practice, Dr. Zari has a background in academia, having previously served as an Assistant Professor and Consultant Dermatologist at the College of Medicine, Umm Al-Qura University in Makkah. His practice focuses on providing the latest treatments in non-surgical cosmetic procedures, including injectables like Botox and fillers, laser therapies, and advanced hair transplant techniques for baldness and hair loss. Dr. Zari is known for his approach that combines scientific precision with an artistic eye to achieve natural-looking results. He actively shares educational content on skincare and hair health through his digital platforms.

Achievements of Dr. Shadi Zari

Dr. Shadi Zari holds dual board certifications from both the American Board of Dermatology and the Canadian Royal College of Physicians and Surgeons in Dermatology. This distinguished achievement highlights his commitment to the highest international standards of medical practice and requires passing rigorous examinations in both the United States and Canada. He completed a highly specialized two-year fellowship in non-surgical facial aesthetics and hair transplantation at the prestigious University of California, San Francisco (UCSF). This advanced training at a world-leading medical institution provided him with deep expertise in the latest cosmetic techniques and procedures. Dr. Zari has contributed to medical education as a former Assistant Professor and Consultant Dermatologist at the College of Medicine at Umm Al-Qura University. In this academic role, he was involved in teaching and training the next generation of physicians alongside his clinical responsibilities.
