Who is Dr. Yahia Hashish

Dr. Yahia Hashish is a renowned Egyptian consultant dermatologist with over a decade of experience in aesthetic medicine and injectables. He is well-known for his artistic approach to aesthetic enhancements using minimally invasive treatments, including dermal fillers, toxins, and energy-based devices. Dr. Hashish has gained significant recognition as one of Egypt's leading specialists in non-surgical rhinoplasty, having performed over two thousand non-surgical nose job treatments using fillers since 2016. In addition to his clinical practice, he is a certified aesthetic trainer for Merz Aesthetics, conducting numerous trainings and workshops for fellow practitioners. He is also a featured speaker at prominent medical conferences such as The Aesthetic Medicine Congress (TAMC). Dr. Hashish frequently appears in Egyptian media as a medical expert on television programs for channels like AlHayah TV and ON TV, discussing the latest techniques in skincare and cosmetic procedures.

Achievements of Dr. Yahia Hashish

Dr. Hashish is a certified aesthetic trainer for Merz Aesthetics, a global leader in the field. In this capacity, he educates and trains other physicians on advanced injectable techniques, underscoring his expertise and esteemed position in the industry. Recognized as "The Nonsurgical Nose Guy" in Egypt, Dr. Hashish has successfully performed over 2,000 non-surgical rhinoplasty procedures using fillers since 2016. This specialization highlights his skill in achieving precise, natural-looking results as an alternative to surgery. Dr. Yahia Hashish is a respected speaker at prestigious medical events, including The Aesthetic Medicine Congress (TAMC), where he shares his expertise with industry peers. He is also a regular expert guest on prominent television channels such as AlHayah TV and ON TV, educating the public on the latest advancements in cosmetic dermatology.
