Who is Dr.Yaman Altal

Dr. Yaman Altal is a distinguished Jordanian Consultant Urological and Andrological Surgeon, renowned for his extensive expertise cultivated over 14 years in the United Kingdom's leading hospitals. After graduating from Jordan University of Science and Technology in 2002, he pursued advanced specialization in the UK, earning the British Board in Urology (FRCS Urol) and becoming a Fellow of the European Committee of Sexual Medicine (FECSM). His training includes prestigious fellowships in uro-oncology, robotic surgery, and minimally invasive techniques at world-class institutions like Guy's and St Thomas' NHS Trust and Imperial College London. Currently, Dr. Altal serves as the Clinical Director of Urology at Abdali Hospital and an Assistant Professor at the Faculty of Medicine at Hashemite University. He is the founder of the Altal Urology & Andrology Institute, an internationally recognized center of excellence for prosthetic urology. Beyond his clinical and academic roles, Dr. Altal is a prominent digital health educator, managing the largest Arabic-language men's health platform on social media. He also hosts the television program "Mesh Taboo" on Roya TV, aiming to break down stigmas surrounding sexual health in the Arab world.

Achievements of Dr.Yaman Altal

Dr. Yaman Altal is recognized as a pioneer of penile implant surgery in the Middle East. His contributions to the field of andrology have been honored with the Coloplast Century Award, recognizing him as one of the world's most distinguished surgeons in this specialty. His clinic, the Altal Urology & Andrology Institute, is designated as an international Center of Excellence (COE) by leading global medical device manufacturers. Academically, Dr. Altal authored the first Arabic scientific study on hydraulic penile implants published in a major international medical journal. He serves as an internationally certified trainer, educating surgeons from the Middle East, North Africa, Europe, and the US in advanced andrological surgery, thereby establishing Jordan as a regional hub for this specialty. As a digital health advocate, Dr. Altal founded the largest Arabic online platform for men's health and urology awareness, reaching millions of followers. Through this platform, he has significantly contributed to public health literacy by demystifying complex medical topics and encouraging open dialogue on previously taboo subjects related to sexual and urological health.
