## Who is Fakhri Jarrar

Fakhri Jarrar is a prominent Jordanian mathematics educator, renowned for his modern approach to teaching mathematics to General Secondary Education Certificate (Tawjihi) students in Jordan. He specializes in the Advanced (Scientific and Industrial) and Business (Literary) streams, delivering his educational content primarily through the "Watad" educational platform and his active YouTube channel. Before dedicating himself to teaching, Fakhri Jarrar studied Electrical Engineering, graduating first in his class. He has also stated his intention to pursue a master's degree in mathematics, reflecting his deep passion for the subject. Jarrar began his career as a social media content creator before transitioning to online education, initially facing challenges in establishing his credibility as a specialized teacher. He quickly built a strong reputation through his innovative teaching style and his ability to simplify complex mathematical concepts. His courses focus on providing comprehensive explanations of the curriculum, including units on differentiation, integration, vectors, and complex numbers. He also offers foundational courses, intensive final review sessions, worksheets, and computerized exams to help students achieve outstanding results.

## Achievements of Fakhri Jarrar

Fakhri Jarrar has achieved remarkable success in teaching Tawjihi mathematics, helping numerous students secure full marks and high scores. One of his most notable achievements is coaching his student, Sara Al-Qirim, to rank sixth in the Kingdom of Jordan in the scientific stream, highlighting the effectiveness of his teaching methods. Jarrar has been featured in television interviews on prominent Jordanian channels, including Roya TV's "CARAVAN" program and A ONE TV's "Sabah Al-Ordoniya." In these appearances, he discussed his career, his transition to online teaching, and offered advice to Tawjihi students. These media features reflect his status as an influential educator in Jordan.
