Who is Hamad Al Jaber

Dr. Hamad Al Jaber, born on February 27, 1973, is one of Qatar's leading plastic and reconstructive surgeons with decades of extensive experience. A graduate of the Royal College of Surgeons in Ireland (1997) and a Fellow of the Royal College of Surgeons, Hamad Al Jaber has built a distinguished career. He began at Hamad Medical Corporation, advancing from trainee to resident physician, and ultimately served as Head of Plastic & Reconstructive Surgery Services—a senior leadership role reflecting his influence in Qatar's healthcare sector. Hamad Al Jaber is the founder of Fai Medical Group in Qatar, which includes Fai Medical Clinics specializing in plastic surgery, reconstructive procedures, and dermatology, as well as Fai Med, a consultancy and nursing agency dedicated to advancing the country's medical industry. His surgical expertise centers on rhinoplasty and body contouring, alongside a broad range of cosmetic procedures. Renowned for his artistic vision, he views plastic surgery as a form of art—considering the human body a canvas and each patient a unique creative project. Beyond his medical career, Hamad Al Jaber is deeply engaged in social and humanitarian initiatives, actively participating in charitable missions and major humanitarian causes. A prominent figure on social media, Hamad Al Jaber shares insights on plastic surgery and life, bridging deep medical expertise with broad community engagement. He exemplifies the pioneering Qatari physician who combines professional excellence with a strong commitment to humanitarian values.
