Who is Hamzah Issam

Hamzah Issam is a Jordanian digital entrepreneur and content creator specializing in YouTube Automation and the application of Artificial Intelligence in content production. He focuses on teaching and implementing strategies for creating and operating successful 'faceless' YouTube channels, which generate revenue without the creator needing to appear on camera. With over six years of experience, Hamzah shares his expertise through his social media platforms and YouTube channel, offering practical tutorials on using AI tools for scriptwriting, voice-overs, video editing, and thumbnail design. Issam has founded several digital brands, most notably the educational platform "Automotionz," which hosts his flagship course, "YouTube Automation Mastery." He also offers channel management services through "Autoz Services." His content primarily targets an Arabic-speaking audience interested in generating online income, demonstrating how to build profitable digital projects by leveraging foreign-language content and advanced automation tools. His teaching style combines theoretical knowledge with hands-on application, often presenting case studies of successful automated channels and breaking down the steps to replicate their success.

Achievements of Hamzah Issam

Hamzah Issam founded "Automotionz," an educational platform offering comprehensive courses for aspiring digital entrepreneurs. His main course, "YouTube Automation Mastery," is designed to teach students how to build profitable, automated YouTube channels from the ground up and has attracted a significant number of individuals seeking to generate online income. He also launched "Autoz Services," a specialized agency that provides YouTube channel management and growth services. This venture offers end-to-end solutions for clients looking to leverage the YouTube platform without handling the day-to-day production, with a particular focus on creating and managing foreign-language content to maximize reach and revenue.
