Who is Hassan Chami

Hassan Chami is a Kuwait-based trading expert and a prominent figure in the Arab world's funded account (Proprietary Trading Firms) community. He began his trading journey in late 2019 and openly shares his initial struggles, which included a year and a half of losses, to emphasize the importance of perseverance and patience. In mid-2023, he shifted his focus entirely to funded accounts, finding success by implementing strict risk management and psychological discipline. Chami is the founder of "FundedForYou," an educational community aimed at guiding Arab traders through the challenges of proprietary trading firms. Through his YouTube channel and other social media platforms, he provides rich educational content focusing on trading psychology and explains his strategy, which incorporates price action, liquidity concepts, and Smart Money Techniques (SMT). Chami consistently maintains that success in trading is not about a magical strategy but rather about adhering to rules, managing risk, and understanding market psychology. He has become an influential voice in the niche, seeking to correct misconceptions and offer a realistic perspective on the challenges and opportunities of funded trading.

Achievements of Hassan Chami

Hassan Chami successfully built an influential personal brand and educational community in the funded trading space called "FundedForYou." Through this platform, he delivers specialized content that has helped numerous traders in the Arab region understand the mechanics of prop firms and develop the skills to pass their evaluations. He is known for his transparency in sharing his journey, including his initial losses, which has earned him widespread credibility and respect. A tangible achievement is his ability to pass numerous challenges from different prop firms like Topstep and FTMO, documenting his profit withdrawals and thus inspiring his followers while validating his methods. He also provides practical, experience-based guidance by recommending specific funding companies, such as Funding Pips and The Trading Pit, to his community.
