## Who is Mohammad Ali Al Hasan

Mohammad Ali Al Hasan is recognized as one of the region's leading business development consultants and professional trainers, with over a decade of experience in managing and growing commercial and real estate ventures. He holds dual master's degrees in Strategic Planning and Economics, an academic foundation that empowers him to craft strategic visions blending rigorous financial analysis with sustainable growth insights. Mohammad's career spans dynamic markets including Dubai, Iraq, and Turkey, giving him deep expertise in regional market dynamics and investment challenges across diverse environments. Mohammad Ali Al Hasan's professional philosophy centers on value-driven consulting, specializing in delivering integrated solutions for commercial and real estate project development—from feasibility studies to operational and growth strategies. As the founder of Baghdad Consulting, he is dedicated to empowering companies and entrepreneurs through tailored training and advisory programs designed to enhance organizational efficiency and achieve operational excellence. His approach uniquely combines modern economic theory with practical, real-world application, making him a trusted strategic partner for organizations seeking transformation and performance elevation. As an influential trainer and consultant, Mohammad Ali Al Hasan is an inspiring voice in the business community, sharing his expertise through social media platforms and industry events. His educational content simplifies strategic planning concepts, business negotiation skills, and the fundamentals of successful real estate investment. Mohammad's work is distinguished by deep field experience, a commitment to international professional standards, and a passion for knowledge transfer—solidifying his role as a strategic expert and growth catalyst who actively shapes the commercial and real estate landscape in the region.
