Who is Mohammed Shubear

Mohammed Shubear is a Jordanian researcher and content creator specializing in analytical psychology, with a primary focus on the psychology of relationships and self-development. Shubear delivers his content across various social media platforms, including Instagram, TikTok, and YouTube, where he shares short and long-form videos that analyze human behaviors and the dynamics of romantic and social relationships. His content targets an Arabic-speaking audience, discussing diverse topics such as emotional maturity, signs of healthy and toxic relationships, social intelligence, self-esteem, and how to understand and improve connections with others. He employs a simplified and direct style to explain complex psychological concepts, making them accessible to the general public. Through his work, Shubear aims to increase psychological awareness and provide practical tools for individuals to enhance their quality of life and personal relationships.

Achievements of Mohammed Shubear

Mohammed Shubear has established an influential digital presence across several social media platforms, engaging an audience interested in psychological content and self-development. He has successfully built a personal brand under the name "Psych Expert," through which he offers analyses and insights into relationships and human behavior, contributing to the dissemination of psychological awareness in the Arabic language.
