Who is Nour Akram

Nour Akram, widely known by her professional moniker "Nur Hoca" (Teacher Nur), is a Syrian educational content creator and Turkish language instructor based in Turkey. She specializes in teaching the Turkish language to Arabic speakers, leveraging her academic background and practical experience. After relocating to Turkey, she pursued higher education at Istanbul University, earning a Bachelor's degree in Turkish Language and Literature, which provided her with a deep understanding of the language and its culture. Nour began her professional journey as a Turkish language teacher at the prestigious "TÖMER" institute, where she honed her skills in teaching and curriculum development. Subsequently, she transitioned to digital content creation to make language learning more accessible to a broader audience. Through her platforms on Instagram, TikTok, and YouTube, Nour delivers simplified lessons and interactive content that covers grammar, vocabulary, and practical daily life situations in Turkey. She has cultivated a significant following of students and individuals interested in Turkish culture, distinguished by her practical approach, ability to simplify complex linguistic concepts, and offering valuable social advice for newcomers to Turkey.

Achievements of Nour Akram

Nour Akram has built a successful personal brand as "Nur Hoca," establishing herself as a trusted resource for thousands of Arabic speakers learning the Turkish language online. She has effectively cultivated an interactive educational community across multiple platforms by providing consistent, high-value content. Leveraging her academic and professional background, she has developed and launched her own online educational courses. These programs help students learn Turkish in a systematic and structured manner, showcasing her ability to transform her expertise into effective educational products.
