Who is Professor Adel Al-Suhaibani

Professor Adel bin Hamad Al-Suhaibani is a prominent Saudi consultant in ophthalmology, serving as a Professor and the Head of the Department of Ophthalmology at the College of Medicine, King Saud University. He possesses extensive expertise in oculoplastic, cosmetic, and reconstructive eye surgery, as well as cataract and refractive surgeries. His academic journey began with a Bachelor of Medicine and Surgery from King Saud University in 2000, followed by the Saudi and King Saud University Fellowship in Ophthalmology in 2005. Pursuing advanced specialization, Professor Al-Suhaibani completed a two-year intensive fellowship in oculoplastic and reconstructive surgery (2006-2008) at the University of Iowa, USA, a world-renowned center in the field. He also obtained the British Fellowship in Ophthalmology in 2011. His practical experience includes a residency at King Abdulaziz University Hospital and King Khaled Eye Specialist Hospital from 2001 to 2005. Currently, he serves as a consultant at King Abdulaziz University Hospital and also practices at respected private institutions like Majesty Hospital and Ibn Rushd Medical Center. He is known for his skill in delicate procedures such as blepharoplasty, ptosis correction, and orbital surgery.

Achievements of Professor Adel Al-Suhaibani

Professor Al-Suhaibani holds the positions of Head of the Ophthalmology Department and Head of the Oculoplastics Unit at the College of Medicine, King Saud University, reflecting his esteemed academic and leadership status at one of Saudi Arabia's foremost medical institutions. He has a prolific research record, having published over 80 scientific papers in peer-reviewed international and local journals. His research contributes significantly to the advancement of knowledge in oculoplastic diseases and surgery, and his work has been cited hundreds of times by researchers globally. Professor Al-Suhaibani possesses exceptional surgical experience, with some sources indicating he has performed over 10,000 successful operations in specialized ophthalmology fields. This establishes him as one of the most experienced surgeons in the region for oculoplastic and cataract surgery. He holds memberships in prestigious international professional societies, including the American Academy of Ophthalmology and the American Society of Ophthalmic Plastic and Reconstructive Surgery (ASOPRS), in addition to the Saudi Ophthalmological Society. These affiliations underscore his commitment to the highest global professional standards.
