Who is Saad Alrayess

Saad Alrayess is a Syrian entrepreneur and financial consultant, recognized as a prominent figure in global financial market analysis and digital investment strategy. Currently based in Istanbul, Turkey, he manages his business and provides consultancy services to a wide audience of investors and companies. His extensive experience, dating back to 2002, is rooted in technical and fundamental market analysis, complemented by expertise in business management and Neuro-Linguistic Programming (NLP). Alrayess serves as the Head of the Technical Analysis Department at BaseUp for Financial Consulting. Previously, he held the position of Senior Financial Analyst at Al-Wasat for Economic Consulting in Saudi Arabia. He is distinguished for being the first Certified International Technical Analyst in Syria, having introduced this scientific approach to the country in 2006, which significantly advanced local market analysis methodologies. In addition to his consulting work, Saad Alrayess is a well-known media personality, frequently appearing as a guest on economic television channels to offer market analysis and forecasts. He is also a professional trainer who worked with the UK-based Elaf Train for Training and Consulting between 2002 and 2007, having trained tens of thousands of individuals from various nationalities on investment and trading strategies.

Achievements of Saad Alrayess

Saad Alrayess is credited as the first internationally certified technical analyst in Syria, earning his certification in 2006. He played a pioneering role in introducing and popularizing this scientific field of financial market analysis within the country, contributing to the development of a new generation of analysts and investors. Throughout his career between 2002 and 2023, Alrayess successfully trained over 100,000 individuals from 23 different nationalities worldwide. His training programs focused on financial analysis, trading strategies, and risk management in the currency, metals, and energy markets. Saad Alrayess has dedicated over 105,000 hours to research in technical and financial analysis of global capital markets from 2006 to 2023. This intensive research effort underscores the depth of his expertise and his ability to stay ahead of market trends, providing precise, data-driven consultancy.
