Who is Shihab Alshadidi

Shihab Alshadidi is a Syrian graphic designer and content creator specializing in the integration of artificial intelligence into the creative process. His educational content focuses on empowering designers to keep pace with technological advancements, offering practical tutorials on how to use AI tools like Midjourney to create innovative advertising designs and visual content. Across his YouTube and Instagram platforms, he provides lessons and demonstrations, from transforming simple photos into professional designs to producing videos using AI. Alshadidi has practical experience in project management and creative design. He worked as a Project Manager for design at Opedia Technologies between 2022 and 2024, where he was responsible for managing a team of designers and overseeing projects from conception to final delivery. He also served as a Creative Designer at Bloom Skin Health, specializing in creating engaging visual content for social media platforms and designing marketing materials aligned with the brand's identity. Through his work, he aims to help designers develop their skills and effectively use modern tools to stay at the forefront of the graphic design field.

Achievements of Shihab Alshadidi

Shihab Alshadidi provides specialized educational content across social media platforms, teaching designers how to leverage AI tools in their work. His YouTube channel focuses on practical applications, such as creating product designs and promotional videos using the latest technologies, making him a resource for designers looking to advance their skills. As a former Design Project Manager at Opedia Technologies, Alshadidi led a team of four designers. He was responsible for end-to-end project management, from understanding client requirements and presenting initial concepts to reviewing final outputs to ensure quality and adherence to deadlines.
