Who is Tarek Copty

Tarek Copty is a leading Consultant Plastic & Reconstructive Surgeon in the Middle East, renowned for his extensive expertise and commitment to excellence. He began his medical journey with a degree from the Royal College of Surgeons in Ireland, followed by advanced training at Beaumont Hospital, where he gained invaluable experience under the mentorship of top plastic and reconstructive surgeons. He further honed his skills through five years of general surgery training in Philadelphia, USA, as part of Drexel University College of Medicine's program, building a strong foundation across surgical specialties. With over 15 years of hands-on experience and more than 10,000 surgeries performed, Tarek Copty specializes in rhinoplasty, facelift, and body contouring procedures. He holds prestigious certifications, including the American Board of Surgery and the Jordanian Board of Plastic Surgery, and is a member of the American Society of Plastic Surgeons. These credentials, combined with his deep expertise, have established him as a trusted authority in his field, known for upholding the highest standards of surgical precision and professionalism. Tarek Copty's impact extends beyond Jordan, shaping the landscape of plastic surgery across the Arab region through his work in leading hospitals in Kuwait, the UAE, and Qatar. His surgical center is distinguished by its adoption of global best practices and innovative techniques, blending artistic vision with advanced aesthetic technologies. Today, he is recognized as one of the most prominent consultants in rhinoplasty, body sculpting, and facelift surgery in Jordan and the region, attracting patients from major Arab capitals who seek his renowned expertise.
