Who is Yasmin Khalid

Yasmin Khalid is an Egyptian educational content creator renowned for founding the "learnwithjazzz" initiative, dedicated to providing free English language education across social media platforms. Yasmin focuses on empowering youth and job seekers by equipping them with the necessary language skills to succeed professionally and socially. Through her YouTube, Instagram, and TikTok channels, she delivers a wide range of content, including comprehensive study plans for all proficiency levels, practical tips for acing English job interviews, and tutorials on effective self-learning techniques like "shadowing." Known for her motivational approach and her ability to simplify complex concepts, Yasmin has become a prominent figure in the free digital education landscape in the Arab world. She advocates that language learning should not be exclusive but a right for everyone, regardless of their financial background. Through her project, which she calls "Free English Learning Methods," she aims to inspire hope and provide tangible opportunities for those who feel their options are limited, emphasizing that knowledge is the most powerful tool for personal and professional empowerment.

Achievements of Yasmin Khalid

Yasmin Khalid has successfully built an impactful educational initiative, "learnwithjazzz," which has become a primary resource for thousands of learners studying English for free in the Arab world. Through her platforms, she provides comprehensive free plans and resources that have helped many effectively develop their language skills from home. A significant personal achievement is reaching the advanced C1 level in English entirely through self-study, without relying on paid courses. She shares this story as an inspiring testament to her followers that achieving fluency is possible with determination, consistent practice, and the use of available resources.
